eMediaboard is easy to integrate in any web based groupware, CRM, ERP, e-learning platform. eMediaboard provides white boards, instant messaging, document sharing, presentation tools in a **synchronous** multimedia, multi user, multi platform environment. eMediaboard works embedded in your current platform and communicates with it using a REST protocol. Your platform provides . eMediaboard provides your clients the authorized services in addition to your product's core offerings.

Amongst the unique features of eMediaboard are synchronous Google map co-navigation, synchronous PDF co-navigation, ability to create visual shopping carts, mobility of all the elements on the boards, cloning of boards and a flexible API.

If your platform provides only asynchronous communication (forums, blogs, emails, notifications) consider adding the power of instant multi-party **synchronous** white boards.
